All-steel body for
durability
Construction

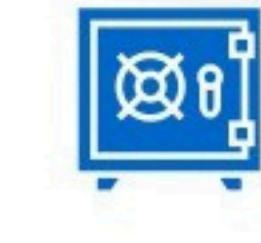

Real-time monitoring
of sales, inventory, and
performance
VMFS Cloud Integration

Key Features

Commercial-Grade Compressor

Capable of cooling items to -0.4°F ,
ensuring your ice remains frozen and
ready for dispensing.

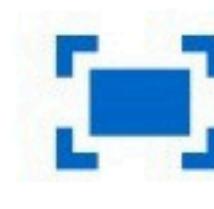

Robust Construction

The all-steel body ensures security,
making the machine tamper-resistant
and durable enough for both indoor and
outdoor use.

High Capacity

With 54 slots and a capacity of up to
594 items, the machine is ideal for high-
traffic locations where frequent
restocking isn't practical.

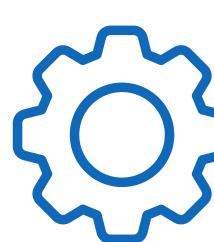

22"- Inch Touchscreen

The smart touch screen vending
machine provides an engaging user
experience.

VMFS Cloud Integration

Manage the machine remotely with real-
time monitoring of sales, inventory, and
machine performance, making it easy to
keep operations running smoothly.

Elevator Delivery System

Ensures frozen items are delivered
smoothly and safely to customers.
