

Name

Coffee and Hot Beverage Vending Machine

Model

SKU-2837

Summary

Introducing our coffee and hot beverage vending machine —engineered for quality, speed, and customization in every cup. Whether you're serving fresh espresso, hot brews, or chilled specialty drinks, this coffee vending machine for sale is ideal for offices, schools, and high-traffic environments. With cloud-based remote management, durable components, and rapid brewing performance, it delivers café-grade results on demand—anytime, anywhere. 22" HD Touchscreen Display – Acts as both a drink selection panel and a digital ad screen, perfect for showcasing branding, promos, or revenue-generating campaigns. Bean-to-Cup Brewing System – Freshly grinds 7–16g of beans per order to serve espresso, cappuccino, mocha, and over 20 premium hot and cold drink options. Fast, High-Capacity Output – Brews each drink in just 45–60 seconds with 3000W heating power; holds up to 160 cups and lids per refill. Advanced Extraction Technology – Uses 9-bar pressure and a precise 92°C temperature for optimal flavor, aroma, and a smooth finish in every cup.

Key Features

1

Bean-to-Cup Brewing

Freshly ground coffee beans ensure every drink is rich in flavor and aroma—true barista quality from bean to cup.

3

High Brewing Power & Output

Equipped with 3000W of heating power, each drink is brewed within 45–60 seconds. Supports 140–160 cups per refill, with optional lid capacity.

5

Touchscreen Operation

Sleek, easy-to-use interface for seamless selection and intuitive operation.

2

Diverse Drink Selection

Offers more than 20 hot beverages including cappuccino, latte, espresso, white coffee, mocha, chocolate milk, and latte cocoa.

4

Precision Bean Dosing

Uses 7–16g of coffee beans per cup—each dose measured for flavor consistency.

6

Smart Maintenance

Built-in automated cleaning cycles keep the machine fresh and hygienic with minimal user effort.
