Key Features

- 1

Full Coffee Vending System

Serve 1.4 hot and 4 cold drinks, including popular options like espresso, mocha, cortado, americano, and more. Customers can enjoy fresh, café-quality drinks in seconds.
- 3

Smart Stirring & One-Click Cleaning

The built-in stirring technology ensures a perfect blend every time, while the one-click cleaning function keeps the machine spotless with minimal effort.
- 5

Touchscreen Interface

The machine features a large, intuitive touchscreen for easy navigation. Plus, the multimedia screen supports advertising, creating an additional revenue stream for your business.

- 2

Automatic Cup Dispensing

No hassle, no mess. The machine automatically dispenses cups, ensuring every drink is served quickly and efficiently.
- 4

Flexible Installation

Compact and versatile, this machine fits easily into high-traffic locations like offices, schools, and hospitals, offering flexibility with minimal space requirements.
- 6

Optional Freshly Ground Coffee

Upgrade to a freshly ground coffee system for the ultimate coffeehouse experience. With this customization, customers can enjoy barista-quality coffee on demand.
