

Name

Electronics Vending Machine

Model

CEVM-ELEC

Summary

The Electronics Vending Machine is a high-capacity, elevator-equipped solution designed for secure, automated sales of tech accessories and high-value electronics. Adjustable Tray System: Comes standard with 7 trays and supports up to 8, with space for up to 600 products. Elevator Delivery: Drop-free soft delivery system protects fragile and high-value items during vending. Easy Inventory Management: Tool-free tray reconfiguration allows for fast product setup and restocking. Built to Perform: Commercial-grade components ensure 99% uptime in high-traffic environments. Secure by Design: Advanced theft protection and tamper-resistant features safeguard your inventory. Modern Payment Options: Supports credit/debit cards, mobile wallets, and contactless payments.

Technical Specifications

Weight

716 lbs.
