Key Features

1

High-Capacity Hot Food Vending

Capable of selling 60 to 270 boxes of meals, including pizza, hamburgers, hot dogs, fries, box lunches, and take-out meals. A cost-effective solution for hot meal vending in busy locations.

3

Flexible Temperature Control

Adjustable temperature between 39°F and 77°F, making it ideal for bakery items, sandwiches, pizza, and hamburgers.

5

Separate Microwave Oven

Allows multiple food items to be heated simultaneously, ensuring quick service with even heating.

2

Conveyor Belt Type Cargo Channel

Items are delivered smoothly with the elevator delivery system, ensuring efficient and damage-free operation.

4

22-Inch Interactive Screen

Features shopping cart functionality, multiple payment methods, and an intuitive purchasing experience for customers.

6

Remote Management System

Remote management with real-time monitoring, video surveillance, fault alarms, revenue tracking, and promotional settings via mobile app.
