Key Features

1

High-Capacity Storage

Stores 300–800 items across up to 8 trays with 7 adjustable channels each.

3

Tool-Free Adjustments

Reconfigure trays and channels in seconds—no tools needed.

5

Industry-Leading Elevator System

Delivers products gently and securely. No drops, just smooth, damage-free vending every time.

2

Soft-Drop Delivery

Elevator lift plus photocell sensors ensure every product vends smoothly.

4

Multiple Payment Methods

Accept bills, coins, cards, and mobile payments with secure, vandal-resistant validators.

6

Smart Product Detection

Photocell sensors ensure every product vends correctly, reducing errors and jams.
