

Name

Pro XL Combo Elevator Vending Machine

Model

CEVM-XL

Summary

The XL Combo Elevator Vending Machine is a high-capacity vending machine with elevator delivery, holding 300 to 800 items across up to 8 trays with 9 adjustable-height channels each. It supports snacks, drinks, meal boxes, and electronics, while ambient or refrigerated models ensure flexible, drop-free vending for any location.

Key Features

- 1

Built for What You
Sell

8 trays, 9 adjustable channels, and
the capacity to work as a reliable
large item vending machine.
- 3

Compact, Powerful
Frame

Small footprint, big output. Fits tight
spots while holding hundreds of items
with ease.
- 5

Per-Item Expiry
Control

Set expiration dates by selection
number or channel to automatically
block sales of expired products.

- 2

Cold or Not—You
Decide

Choose refrigerated or ambient.
Keep it fresh or keep it simple—it's
your call.
- 4

Smooth Elevator
Delivery

No drops. No jams. Smooth multi-item
vending powered by an industry-leading
elevator delivery system.
- 6

Smart Product Detection

Photocell sensors ensure every product
vends correctly, reducing errors and jams.
